

COVID Update

COVID-19 Policies and Recommendations

COVID-19 Policies and Recommendations

Please remember that with COVID, we must always be prepared to adjust as circumstances change.

GET VACCINATED! There is widespread agreement in the scientific and medical community that this is the best way to keep our community safe.

Use this tool to find a free COVID-19 vaccination site in your area, <https://www.vaccines.gov/search/>

In the office setting:

Masks: Masks are required indoors.

Each employee must wear a face covering indoors—regardless of vaccination status.

No mask required when engaged in an activity that cannot be performed while wearing a mask, such as eating or drinking.

Symptoms: For the safety and well-being of our staff, community, vendors, and customers, all members of this community who are sick should stay home. They should contact their medical professional, and promptly seek a diagnostic COVID test.

For more information about COVID protocols and best practices for the workplace please reach out to us to assist you in updating your policies and procedures!
